OBJECTIVE

To utilize my front end development and graphic design skills to obtain a job creating websites and enriching user experiences.

EXPERIENCE

Visual Data Systems
Web Designer
December 2009 - Present

Design websites, applications, and email templates for clients. Work with developers to build static and dynamic areas of websites. Test designs and builds for cross-browser compatibility. Perform daily support tasks, updates and maintenance. Assist in building new company design standards.

UMBC Office of Student Life
Marketing Intern
August 2008 - May 2009

Created plans and strategized campaigns to market campus events to students. Designed posters advertising events. Wrote weekly articles for third party website UMBC Underground. Created weekly event promotional videos.

Baltimore Orioles
Photography Intern
April 2008 - October 2008

Photographed Orioles home games, local special events, and player appearances at ESPNZone. Filled in-house and external requests for images trademarked by the Baltimore Orioles. Assisted the team photographer in the office and on photo shoots.

FREELANCE

The Megaphone Project
June 2012 - September 2012

Designed and developed new static website for non-profit organization.

Qazoo
February 2012 - March 2012

Designed and developed static and dynamic Facebook welcome pages.

The Awe Shack
November 2008 - January 2009

Designed restaurant identity, menu, website, and promotional materials. Developed website and performed routine maintenance as requested.
